## Dorset/Long Trail Girls' Basketball Scores Victory over MEMS

Manchester - The combined Dorset/Long Trail middle school girls' basketball team traveled to Manchester Elementary/Middle School on January 13 to play against the 8th grade MEMS team. A hard fought game from start to finish, the Dorset/Long Trail team pulled away in the second half to win by a final score of 15-6 and to notch their second win of the season.

Sarah Maness led all scorers with 10 points, and Cara Corvino was stalwart under the hoop, gathering a team high 9 rebounds. Rachel Wolansky played some tenacious defense atop the key to help shut down MEMS' potent offense. Hannah Scott, McKenna Bovey, and Sam Gerenser also contributed to the team effort, with Gerenser earning her first point of the season.

MEMS leading scorer was Brianna B rockett, with four points. Lauren Keyes netted two. Morgan Bazyk and Allie Gaiotti pulled down five rebounds apiece.

John Sutor, Long Trail Head of School and coach of the girls' Dorset/Long Trail team, praised the continued improvement of the players. "We're starting to know each other much better now, and our ability to share the ball and play team defense have keyed our victories in two out of our last three games."

Dorset and Long Trail collaborated to combine their teams. Dorset School Principal Jim Merryman and Long Trail Head of School John Sutor are delighted to join forces in this way to promote team building, collaboration, and community spirit among the two schools and their constituencies.
