## **LONG TRAIL SCHOOL ENRICHMENT CLASSES ARE ALL NEW, by Louis Bronson '15**

Dorset, VT--- At Long Trail School there is a new class that everybody is talking about: not science, not English, not math, but enrichment class. These classes happen every Thursday and Friday. They are about forty-minutes long and are really exciting for the kids and teachers at Long Trail. "I have so much fun in E-classes," says 6th grader Rowan Rainwalker. Everybody, even teachers, has nicknamed them E-classes. Faculty love to teach these classes. "I love to cook, and love to teach people to cook," states Courtney Callo who offers the Culinary Arts class. During this class, kids had their hands wrist-deep in some pumpkins, turning them into pumpkin bread. "It's cool, and I get to hang out with my friends," adds 6th grader McKenna Polich. Enrichment classes are chosen four times a year. The offered classes are listed on a sheet and given out to the students and each student chooses his top 5 choices for each day. Some teachers have an extra period of time for their AP classes and if the student is in the AP class, then they have to join. When Thursday or Friday rolls around, the student travels from his last class to his E-class. Simple. Misty Lewis had this to say: "I have so much fun that I cry." I have so much fun in my E-class that I got to write this article.
